

Paint & Coating

31 MARCH - 2 APRIL 2027

 **Azerbaijan, Baku Expo Center**

INTERNATIONAL EXHIBITION OF **PAINTS, RESINS, COATINGS, COMPOSITES AND ELECTROPLATING**, AS WELL AS EQUIPMENT AND TECHNOLOGIES FOR THEIR PRODUCTION

UNITING THE PAINT AND COATING INDUSTRY IN THE HEART OF CAUCASIAN

Meet buyers and suppliers from around the world at the most influential coatings event in Azerbaijan.

PAINT & COATING EXPO – 2027 is an event that allows you to discover the latest technologies and innovations in the paint and coatings industry. Learn about modern trends, develop your skills, and establish valuable business relationships. This is a unique opportunity to exchange experiences, gain inspiration, and grow within the dynamic World of the chemical industry.

PAINT & COATING EXPO – 2027 will be the most promising and comprehensive exhibition in Uzbekistan for coatings and paints across the construction, industrial, petrochemical, pharmaceutical, environmental, automotive, furniture, and related industries.

What to Expect at PAINT & COATING EXPO – 2027

The exhibition will cover a wide range of sectors within the coatings and paint industry, including:

- Paint and coating materials
- Printing inks
- Chemicals and raw materials
- Production facilities
- Analytical equipment
- Environmental protection and water treatment technologies
- Innovative technologies and services

The exhibition will also showcase the latest applications of new technologies, products, and materials designed to meet the needs of advanced countries entering the Azerbaijan market.

The international exhibition of paints and varnishes, resins, coatings, composites and electroplating, as well as equipment and technologies for their production, is mainly focused on the following areas:

- Industrial coatings
- Color types
- Resin types
- Electroplating industry (*nickel, chrome, metals, plastics, water treatment and electroplating wastewater, anodizing, electroplating solution testing, industrial decorative blackening, fantachrome*)
- Manufacturers of all types of paints and coatings (*construction, industry, automotive, shipbuilding, decorative finishes, industrial flooring, pipelines, and surface insulation*)
- Composites
- Machine sealants
- Manufacturers of composite materials and coatings
- Manufacturers of composite parts
- Equipment and machinery for painting and coating application
- Laboratory equipment and coating control
- Paint and chemical packaging industry and related container manufacturers
- Safety and recycling equipment
- Nanocoatings, processes, and new coatings
- Industrial and general adhesive types
- Engineering consultancy firms and contractors
- Chemicals and raw materials (*all types of resins, pigments, thinners, solvents, additives, salts and electroplating chemicals, inhibitors, and anti-corrosion chemicals*)
- Research centers and trade associations
- Related to the paint industry
- Industry-specific magazines
- Powder coatings
- Printing inks
- Patina coatings
- Water-based paints
- Galvanized coatings
- Heat treatment
- Corrosion
- Color matching machines
- Fire-resistant paints
